TITLE	1977-1978 Directory of Visiting Lecturers and Research Scholars in the United States under the Mutual Educational Exchange Program (Fulbright-Hays Act)
INSTITUTION	Council for International Exchange of Scholars, Washington, D.C.
PUB DATE	Oct 77
NOTE	45p.
AVAILABLE FROM	Council for International Exchange of Scholars, 11 Dupont Circle, N.W., Washington, D.C. 20036
EDRS PRICE	MF-$0.83 HC-$2.06 Plus Postage.
DESCRIPTORS	Directories; Federal Aid; Federal Programs; *Foreign Nationals; Grants; *Higher Education; *International Educational Exchange; Researchers; *Research Projects; *Teacher Exchange Programs
IDENTIFIERS	*Fulbright Hays Act

ABSTRACT

Listed are visiting scholars from abroad who have been awarded grants under the provisions of the Fulbright-Hays Act for university lecturing and advanced research in the United States. Approximately 650 senior scholars from 67 countries are sponsored under the act, and all those whose grants were awarded or extended prior to September 15, 1977. Although most of the visitors have single institutional affiliations during their grants, many have broad academic interests and would welcome opportunities to visit other colleges and universities to become acquainted with higher education in the U.S. and to meet and exchange ideas with American colleagues. In the directory their names, home countries and institutions, host institutions, duration of stay, and projects are listed. (MSE)

FOREWORD

This directory lists visiting scholars from abroad who have been awarded grants under the provisions of the Mutual Educational Exchange Program (Fulbright-Hays) for university lecturing and advanced research in the United States. The directory is prepared annually for reference by interested American scholars, educational institutions, community and professional organizations, as well as for the use of the scholars themselves.

Approximately 650 senior scholars from 67 countries are sponsored under the Fulbright-Hays program for lecturing or advanced research in the United States during the 1977-78 program year. This directory lists all scholars whose grants were awarded, or for whom extensions were approved, prior to September 15, 1977. A supplement to this directory will be available on request in January 1978. It is anticipated that additional scholars from a number of countries in various disciplines will be selected for awards. Several scholars received short-term awards and have already returned to their home countries. Arrangement of the directory is by academic discipline in two major divisions; for convenience in identifying scholars by geographic area, a cross-listing by home country is included.

Although most of these exchange visitors have single institutional affiliations during their grants, many have broad academic interests and would welcome opportunities to visit other colleges and universities in order to become acquainted with higher education in the United States and to meet and exchange ideas with American colleagues. Many would be pleased to accept invitations to give occasional lectures, either in their special fields or on general topics relating to the history and culture of their home countries, providing they can arrange for brief absences from teaching or research assignments. Institutions or individuals may contact scholars directly. It is hoped that scholars invited as guest speakers will be offered travel and maintenance expenses and, when possible, an honorarium.

The Council is glad to assist with arrangements for Fulbright-Hays scholars to give occasional lectures; limited funds are available to facilitate visits to interested colleges and universities which have had little opportunity to participate in educational exchange programs. The Council will be pleased to respond to inquiries and to provide additional information about any of the scholars.

COUNCIL FOR
INTERNATIONAL EXCHANGE OF SCHOLARS
ADMINISTERED BY AMERICAN COUNCIL ON EDUCATION
ELEVEN DUPONT CIRCLE, SUITE 300
WASHINGTON, D.C. 20036

FULBRIGHT-HAYS PROGRAM FOR SCHOLARS FROM ABROAD

Approximately 500 scholars from abroad are awarded grants each year under the Fulbright-Hays program for lecturing or postdoctoral research at colleges, universities and research institutions in the United States. The Council for International Exchange of Scholars is responsible for arranging or confirming programs in the United States and for administering the grants. About 15,000 scholars have been sponsored under the program since 1947.

The exchange program authorized by the Fulbright-Hays Act is supervised by the Board of Foreign Scholarships, which establishes general policies and selects all participating individuals and institutions. The Department of State, acting through its Bureau of Educational and Cultural Affairs, administers the program with the assistance of binational commissions and foundations, United States embassies and consulates abroad, and designated cooperating agencies in the United States.

The Council for International Exchange of Scholars, established in 1947 by the Conference Board of Associated Research Councils, is the principal private agency in the United States assisting in the administration of the program for senior scholars. The member councils of the Conference Board of Associated Research Councils -- the American Council on Education, the American Council of Learned Societies, the National Research Council, and the Social Science Research Council -- nominate members of the Council for International Exchange of Scholars. CIES is affiliated with the American Council on Education.

NATURE OF GRANTS

A Fulbright-Hays award provides for the international travel of the grantee to and from the host institution in the United States as well as hospital and sickness insurance. About 40 percent of the visiting scholars also receive maintenance grants under country allocations established by the Department of State. For the majority of scholars, financial support while in the United States comes from host institutions; other assistance comes from private foundations, home institutions or governments, binational Fulbright commissions, foundations abroad, or personal funds.

Grants are usually awarded for a period of three to twelve months but may be extended for limited periods. A few awards are made for less than three months but not for the principal purpose of attending conferences.

RESEARCH SCHOLARS WITH FULBRIGHT-HAYS MAINTENANCE

Full or partial maintenance awards are allocated in certain country programs for scholars to carry out advanced research. Arrangements are made by CIES with an institution which offers research facilities in the candidate's specialized field of interest, often at one requested by the scholar. The host institution makes important contributions by waiving academic fees and providing space, research support, and association with professional colleagues.

LECTURERS WITH FULBRIGHT-HAYS MAINTENANCE

About 60 maintenance awards are available annually for lecturers to participate in special programs proposed by U.S. colleges and universities. Proposals are accepted for scholars from Africa, the American Republics, Asia, the Near East, East Europe, and the U.S.S.R. Under this program, a U.S. college, university, or group of institutions or a consortium may request a visiting professor or scholar-in-residence to teach or serve as a resource person in one or more departments or in an international or area studies program.

An announcement with information on the program for each area is issued annually in February. Proposals must be prepared on forms provided by CIES and should be submitted by October for the following academic year. Specific scholars may be named or CIES and Fulbright agencies abroad will nominate candidates for the appointments offered. Supplemental funding from the

host institution is expected.

SCHOLARS WITH STIPENDS FROM U.S. HOST INSTITUTIONS

A scholar from abroad may be eligible for a Fulbright-Hays travel grant if a U.S. institution wishes to offer an appointment for teaching and/or research and is able to provide full or major financial support. For such an appointment, a U.S. institution may follow one of these three procedures:

- Issue an invitation directly to the scholar for a particular teaching or research appointment, advising the candidate to apply for a travel grant through the Fulbright agency in the country of citizenship. The invitation should indicate the nature of the proposed appointment, the period involved, and the salary.

- Request the assistance of CIES in finding a qualified candidate for a particular teaching or research appointment for which a stipend can be offered. CIES will provide a form specifying the details required from the university and will indicate those countries from which candidates may be invited. A request should be made well in advance (9-12 months) of the assignment and only when the university has a definite position which will be held open pending recruitment of candidates. Lists of available scholars can sometimes be supplied by CIES.

- Propose a direct exchange between a foreign scholar and an American professor. Each must apply to the Fulbright agency in the country of citizenship and be selected for an award. Although an exchange proposal may strengthen an application, it is not decisive in the selection process.

APPLICATION OF SCHOLAR ABROAD

The applicant must be a citizen or permanent resident of the country where application is made; must have a doctorate or its equivalent in professional training or experience; must submit an acceptable research or teaching proposal to be carried out in a U.S. institution or research center approved by the Board of Foreign Scholarships; must have assurance of sufficient dollar support to cover living expenses in the United States. Scholars from non-English speaking countries are required to provide evidence of sufficient knowledge of English to carry out the proposed lecturing or research program. Preference is usually given to those without recent experience in the United States.

Persons desiring permanent residence in the United States should not apply for awards under the Fulbright-Hays program. Fulbright-Hays grantees enter the United States on an Exchange Visitor (J-1) visa under Exchange Visitor Program No. G-1-5. In view of government financing for the Fulbright-Hays program and provisions of the Immigration and Nationality Act, it is required that any scholar sponsored under this program reside in the home country for a period of two years before reentering the United States for permanent residence.

The application of a scholar is submitted for initial screening and review to the binational educational commission or foundation in the country of citizenship or permanent residence. These agencies are responsible, under executive agreements, for administration of the programs in some 45 countries; in other countries, programs are administered by the U.S. embassy where inquiries may be addressed to the Cultural Affairs Officer. Application dates are determined by each overseas agency and vary from country to country. CIES will provide the name and address of the agency where a scholar may apply or make inquiries.

After initial screening and recommendation by the appropriate administrative agency abroad, an application is forwarded to the Department of State for review and approval by the Board of Foreign Scholarships. Final selection is contingent upon satisfactory arrangements for the scholar's academic affiliation and adequacy of dollar resources.
